

FAKE PASSPORTS CAUSE TRAGEDY

Victims Beg Not to Be
Sent Back After Buy-
ing False Papers

WOMEN ARE FLEEDED

Every Ship Arriving Brings
Its Quota of Those Fooled
by Unscrupulous Swindlers

NEW YORK, March 5. Please, oh please, do not send me back, they were shouting at Ellis Island today, until the words were stopped by more of immigrant women and children who are victims of false passport swindlers. The United States consulate, vice consuls at London and Warsaw.

Harry H. Schmitt, commissioned by the department of labor recently as head of immigrant aid at Ellis Island, said he was convinced, after thoroughly investigating personally two cases of passport fraud within the past three days, that foreign residents of the United States were responsible for defrauding those poor detainees. A woman of Polish origin, who had been in the United States for days, even weeks, sleeping on the ground at night, said Schmitt:

"They were swindled by alleged Americans bearing passports and visa stamps. They explain to these women it will be necessary for them to wait indefinitely in line—that for a proper fee 'passport troubles' will be smoothed away. The women are flummoxed, generally parting with all their cash, above the price of the

immigration average passage, to get a passport quickly. I am reaching America, the land of their dreams and hopes, they are packed and disoriented to learn they have been defrauded. When told they must go back, they say: To what place shall we go? We have sold out all to make the journey. We have no furniture, no home, nothing. Such an experience coming up on weeks of wait, worry and visa traveling in the sea made—admitted so they could reach America—is pure tragedy.

Women Usual Victims. It is found that more than 75 per cent of all such passport frauds are perpetrated upon women immigrants. There is an international scandal and does not require the credit of our government. These women could be prevented from boarding steamships with false passports and (this would be saved the next) looking experience of reaching America, only to be sent back to their homes.

It is understood that the department of labor, while recognizing the scandalous situation in which these women have been placed, hesitates to allow them to enter unassisted as that would set a precedent and in effect endorse passport frauds. Every ship arriving with immigrants, said Schmitt, "brings its quota of women, with their children, who have been victimized by passport makers."

Dr. Hood Improving. Dr. C. O. Hood, who suffered a stroke of paralysis last Sunday, is recovering at his home, 1302 South Denver avenue. Attending physicians say he will get well.

URGE LIVESTOCK INTEREST

Dairy Impetus Growing But Other Cattle Neglected

The paramount need of Oklahoma farmers, an extensive department worker of A. & M. college said upon a recent visit to Tulsa, is livestock, particularly cows. Efforts furnished by the state co-operative crop reporting service are encouraging in this respect, showing that while the combined number of horses and mules has not varied to any great extent in Oklahoma since 1910, the number of head per farm maintaining fairly constant, the dairy industry is receiving new impetus, judging by the increased number of milk cows being put on the farms. The number since 1910 has increased approximately 300,000, the value per head January first 1920 was \$48 against \$21.50 in 1910, showing an increase of 124.50. The value of the milk produced in Oklahoma in 1919 has been estimated at \$1,000,000 and better grades of milk cows, the report goes on to state are taking the place of scrub stock.

A Hole With Exceptions.
Father was standing before the open fire, lecturing his son and heir on the necessity of thinking twice before speaking once.

"Father!" exclaimed the boy in the middle of the talk. The father held up a warning finger. "Think again before you speak, my son, and then I will answer you." The boy pondered for a full moment and then said: "Father, I have thought twice and now I am quite convinced that your coat tails are on fire."
